# The AUSTRALIAN COMPUTER JOURNAL

## VOLUME 25

## February 1993 to November 1993

### CONTENTS

*Contributions*

**1. February, 1993**

| | | |
|---|---|---|
| Dunstan, N., Keedy, J.L. and Rosenberg, J. | Support for Concurent Programming on the MONADS-PC System | 1-6 |
| Colomb, R.M. | Use of a Personal Workstation to Access Open Network Services | 7-13 |
| Allison, L. | Applications of Recursively Defined Data Structures System | 14-20 |
| Eades, P., Lin, X. and Wormald, N.C. | Performance Guarantees for Motion Planning with Temporal Uncertainty | 21-28 |

**2. May, 1993**

| | | |
|---|---|---|
| Harris, G.H. and Forster, J.H.H. | Automation of the Crozzle | 41-48 |
| Elliot, S. | Formal Computing Education in Australia: Do We Practise What We Teach? | 49-60 |
| van Bommel, P. | A Randomised Schema Mutator for Evolutionary Database Optimisation | 61-69 |
| Hannaford, M.R. and Blatt, D.W.E. | Realisable Memory Management Algorithms | 70-81 |

**3. August, 1993**

| | | |
|---|---|---|
| Dromey, R.G. | Guest Editorial: The Software Quality Imperative | 93 |
| Chmiel, W.F. and Wilson, D.N. | Software Quality Assurance: Now is the time, Australia | 94-97 |
| Thornton, B.S. and Lee J.K. | Dynamic Complexity Parameters for Software/Operating System Interaction During Developments or Re-engineering | 98-104 |
| Abel, D.E. and Rout, T.P. | Defining and Specifying the Quality Attributes of Software Products | 105-112 |
| Goldsworthy, A.W. | IT and the Competency Debate — Skill vs Knowledge. A Major Issue | 113-122 |

**4. November, 1993**

| | | |
|---|---|---|
| Lokan, C.J. | The *Cleanroom* Process for Software Development | 129-134 |
| Peters III, J.F. | Reasoning About Real-Time Systems | 135-147 |
| Klobas, J.E. and McGill, T. | Computing Professionals and Information About Developments in Information Technology | 149-158 |
